

Search Engine Optimisation

A one day, 5 star rated course from the Marketing Training experts

SEO Course

This is a one day training course that will give you a good understanding of how search engines rank your web pages, how to identify the best keywords to target and how to implement an SEO programme of on-page and off-page techniques.

Google controls around 90% of UK searches and over 70% worldwide. Understanding how to appear high in there results pages can be critical for a business.

This course will show you how to optimise your website to get high rankings in Google; and how you can build your domain and page authority to gain higher rankings.

Suitability - Who should attend?

This training course is ideal for anyone who wants their website to appear high in Google Search results.

You might have some experience of SEO, but it is not necessary for the course.

Martin was a great teacher, explaining everything clearly and applying everything back to my business and making it very easy to understand. For someone who has done very little with SEO before the course, he was very understanding and explained everything in great detail. Would definitely recommend to other companies.

Molly Hadfield | GymCube
