Photoshop

A one day, 5 star rated course from the Marketing Training experts

mtraining

Photoshop Course

We offer private Photoshop training on a one to one or group basis for beginners to intermediate levels.

Run by a Photoshop and CS Suite Expert with over 15 years experience in using Photoshop for organisations, agencies and business..

Photoshop is the most used and respected professional image editing tool. It used by photographers, design agencies and commercial organisations throughout the world.

However, it is a deep and complex tool which requires considerable skill to use effectively. We offer invaluable practical courses that will shorten your learning curve so you become more proficient in a short period of time.

In addition to teaching you how to use the tools available in Photoshop our trainer has the design expertise to show you how to get the effects you are after..

Suitability - Who should attend?

This course is offered as a private course. You can choose what you want to cover and choose from half a day to two or more days of training.

Our Photoshop course can therefore be designed to meet almost anyone's requirements, whether you are a novice or have already have some Photoshop experience..

The [Photoshop] course was very informative and well-structured with good materials to work on and documents to refer back to. I managed to apply my new skills to a couple of new projects we are currently working on which is great.

Veronika Seiwald | Takagi Europe

The courses were really informative! I started the courses as a novice and they have taught me all the skills I need to really progress.

Amina Khan | Marketing Manager
