# Project Management Course

During this one day training course you will learn Project Management theory and practical skills to enhance your performance as a Project Manager and ensure the success of your projects.

## Introduction

Many Project Managers have developed naturally into the position with little guidance or formal training. This can result in sub-optimal project performance, and stress for the Project Manager and stakeholders.

On this one day Project Management course you will gain a comprehensive knowledge of the key skills and techniques required to set Project Strategy and drive Project Performance.

## Who would benefit from this course?

Anyone who manages projects, or aspects of projects, who has not yet received project management training.

Or anyone who has had formal training in the past and would like 'refresher' training.

Anyone who wishes to become a Project Manager

## Classroom & Virtual Classroom Courses

We offer this course as a classroom based course and as a live, interactive online course.

Our classroom courses are run as public courses at the venues shown below or as a private course anywhere in the UK.

Our online Virtual Classroom courses are available for people anywhere in the world with internet access. You will be able to see the trainer, their screen, be able to chat and ask questions, just like on our regular classroom courses.

A good overview with the right amount of detail in each area.

Some great examples to work on during the workshop. Plenty to take away and put into practice.
