Power BI Course

Learn how to use Power BI to create dynamic, interactive visualisations of your business data on this 2-day course.

Introduction

This two-day course will provide you with the skills you need to create useful, dynamic, interactive reports that visualise your data using Power BI dashboards.

These visualisations can be used to provide insights that will help your business improve its performance.

Who would benefit from this course?

This course is designed for anyone with responsibility of creating reports using organisational data.

Ideally, you should have some knowledge of Excel and Office 365.

Private & One to One courses

We offer private group courses and one-to-one courses throughout the UK from £1,380 and Online for £1,180. Please email or call us with your preferred venue, number of delegates and any requests.

Classroom & Virtual Classroom Courses

We offer this course as a classroom based course and as a live, interactive online course.

Our classroom courses are run as public courses at the venues shown below or as a private course anywhere in the UK.

Our online Virtual Classroom courses are available for people anywhere in the world with internet access. You will be able to see the trainer, their screen, chat and ask questions, just like on our regular classroom courses.

No More Than 6 Delegates

5 Star Rated Course

Practice Led Learning

3 Months Online Support

Lunch Provided

Detailed Course Notes

Our interactive practical courses and learner centred approach, combined with small class sizes, provides the very best learning environment

Google

5.0 ★★★★★

I attended several courses which were all very informative, well-structured and delivered to a high standard. All questions I had during the day were answered. I left with increased knowledge and feeling confident about the specific areas

Matthew Mycock, Haywater Healthcare
